# Welcome

The Faculty of Pharmacy, Alexandria University takes great pleasure in extending a cordial invitation to you to join our upcoming **3<sup>rd</sup> International Conference and Exhibition on Pharmaceutical and Healthcare Sciences – PHS 2024**. This remarkable event will be held at the Hilton Green Plaza Hotel, in the heart of the historic city of Alexandria, Egypt, on October 23-24, 2024. The PHS 2024 Conference will center around the theme "**Academia - Industry: The Power of Collaboration**" in recognition of the immense positive impact that emerges when academia and industry converge. By building upon the resounding success of its predecessors, PHS 2019 and PHS 2022 conferences, PHS 2020 and PHS 2021 webinars and PHS 2023 symposium, PHS 2024 provides an unparalleled opportunity to strengthen academia-industry intersection for mutual innovations. Emphasis is placed on establishing a sustainable partnership based on integrating advances in health care research and pharmaceutical technology for improved patient care. The conference provides an optimal setting for eminent speakers, industry leaders, distinguished healthcare professionals, researchers and students as well as visionary entrepreneurs and representatives of innovation support and commercialization bodies. Inspiring talks and interactive discussions would attenuate inherent differences and establish a road map for approaches, strategies and tools to minimize organizational complexities and strengthen collaborative endeavors and new business ventures. The conference will also provide a vast and distinctive exhibition area bringing together pioneering pharmaceutical companies and an array of healthcare providers, creating an interactive and vibrant atmosphere conducive to integrated advancement of patient care.
